Care for Fruit—The local office of the Pacific Fruit Express company received orders this morning for 12

GRAPE JUICE IS MADE IN OGDEN

Although the mention of grape juice is usually accompanied by smiles since William Jennings Bryan became such an exponent of the delicious beverage, several Ogden people are regarding grape juice as a serious proposition. In time the manufacture of the drink may be one of Ogden's leading industries. Already it is being manufactured on a small scale at a remarkably reasonable cost and of a quality much higher than the eastern products.

For the past few years Secretary L. Reynolds of the Weber club has been buying grapes grown in the vicinity of Ogden and has made in the kitchen of the club several gallons for club use. Last year 40 gallons were bottled, but the grape juice lasted but a short time. This year the secretary is planning to bottle 100 gallons.

While the eastern product costs about 40 cents a quart wholesale, grape juice of twice the strength and of a much better flavor can be made of Utah grapes at home at a cost of about 75 cents a gallon. At least that is the price at which it is made at the Weber club.

The fame of the grape juice has extended throughout the city and soda manufacturers have taken up the study of grape juice manufacture and some have gone so far as to investigate prices on machinery for bottling the product and presses for extracting the juice. While it is not probable that grape juice will be manufactured on a large scale this season, there is every possibility of a grape juice plant being put in operation next fall.

WEBER CLUB IS TO HAVE THE LATEST

Butter, churned daily from fresh cream, and cider, made daily from fresh, luscious, wormless Utah apples will be two of the many features to be enjoyed by members of the Weber club when the new home on the fifth floor of the Kiesel building at Hudson avenue and 24th street is occupied. Secretary L. Reynolds has ordered an electric churn and an electric cider mill among the equipment of the kitchen of the club. Apples will be stored for use and the cider will be made each day. Likewise the fresh cream will be delivered to the club kitchen and there it will be churned into butter for the exclusive use of the Weber club.

The contract for the installation of the refrigerating plant has been awarded to an eastern company through its local representative, H. H. Keener. Mr. Keener represents his company throughout this territory and selected Ogden as his headquarters because of its central location and convenience as a railroad city.

The pipes for the plant are now being laid. Three big chests will be cooled to varying degrees. The first cooler will be kept at a temperature of 28 degrees. The second will remain at 36 degrees and a third at 40 degrees. All goods at the bar will be cooled by the plant and in addition connections will be made to permit of the entire quarters to be cooled during the summer by the refrigeration. Gas will be used in the kitchen. There will be a large gas range, a broiler, a warming oven and dish warmer besides the various smaller articles of kitchen equipment.

Hugo Clausen, a decorator of recognized ability, has been engaged to finish the club quarters. Clausen held such important contracts as the Utah hotel, Commercial club of Salt Lake, the new Salt Lake Orpheum and is now engaged in re-decorating the home of Mrs. David Eccles at a cost of about \$15,000.

Clausen has already planned his club decorations and there will be no delay when the fifth floor is completed. While all furnishings will be of the best, the decorator has strict instructions to maintain the homelike feature for which the club is famous.

OGDEN GIRL IS VICTIM OF A HOLDUP

Press dispatches state that Miss Nancy Bond, daughter of Henry M. Bond, a former resident of Ogden, was held up and robbed in San Francisco last night of \$28 in cash and a check book containing a balance credit of \$1000.

Miss Bond is well known in this city. Her brother, Fred E. Bond, who is connected with the Utah Construction company, and her aunt, Mrs. A. G. Harris, being residents of Ogden. Miss Bond has been a resident of Salt Lake for some time past.

CAR SERVICE IS INCREASED BY TRANSIT

Beginning tomorrow morning at 7:30, Washington avenue cars will be operated every ten minutes, the schedule to be a fifteen-minute one from 8 o'clock in the morning until 7:30 p. m. The ten minute service will continue until 8:30 p. m., when the fifteen-minute service will prevail up to the time of the last car at midnight. Traffic over this line of the city system has increased to the point where it has become necessary for the Rapid Transit company to put on an extra car and shorten the time to ten minutes during the busy part of the day.

From now on, the canyon cars will be operated every hour to the Hermitage, beginning at 8 o'clock in the morning. The cars will leave the Hermitage thirty minutes after the hour. The service will be continued until 10:30 in the evening.

Society

SILVER HIVE NO. 1.

The officers and members of Silver Hive No. 1, Ladies of the Macabees of the World, are planning to attend the two-days' meetings at the state rally at Salt Lake, tomorrow and Wednesday and an enthusiastic company will leave here in the morning. The officers and guards who will attend are:

Officers—Kathryn Eggleston, Maggie Sherman, Anna Holden, Caroline Jarvis, L. Jennie Prout, Eliza Piggett, Addie Vicks, Jeannette Crase, Mary Estes, Edith Poyer, Elizabeth Harm, Florence Hart, Emma Chause.

Guards—Agnes Graves, Addie Baker, Ida Rowson, Mary Breen, Mary Wilson, Martha Kramer, Mary Blikt, Lydia Lightner, Fidelity Lorlich, Agnes Bybee, Barbara Ludwig, Emma Allen, Mary Dora, Frances Norton, Addie Fellows, Julia Calvert, Lena Preece, Gertrude Weaver, Jessie Fowler, Frances Coppack, Clara Chase, Florence Smith.

Besides these a large number of members will attend.

TO ATTEND WEDDING.

Miss Marie Garner has gone to Kemmerer, Wyoming, where she will be maid of honor at the wedding of Miss Stibel Ross and Rev. Wallace Nelson Pierson at St. James church, Wednesday, September 10.

DEATHS AND FUNERALS

ROBINS—The body of Wilmer B. Robins, who was drowned in the Ogden river last evening, will be shipped to the home in Selpio, Millard county, where funeral services and interment will take place. Mr. Robins is survived by his mother and several brothers and sisters in Selpio and a brother, Clinton D. Robins, of Eden, with whom he has been visiting. The body is at Larkins undertaking parlors where it will be prepared for burial.

BROWNING—J. Alma Browning, aged 68 years, died at 3 a. m. today at the home of his daughter, Mrs. Annie Bugger in Layton, Davis county. The body was brought to Larkins parlors where it may be viewed Tuesday evening until 9 p. m. and Wednesday from 10 a. m. to 1 p. m. Funeral at 2 p. m. Wednesday in the Ninth ward. Burial in the home of Mrs. Browning is survived by his wife and the following daughters: Mrs. Pauline Anderson, Mrs. Mary Johnston, Mrs. Annie Bugger, Mrs. Elizabeth Miller and also several brothers and sisters. He was one of the oldest musicians in Utah and one of the oldest residents of Ogden.

LARSON—Larry Larson of Harrisville, a former conductor on the Oregon Short Line, died yesterday afternoon at the family home. For the past six years he had been a sufferer of heart and stomach trouble and his death was due to these ailments. He was born in Sweden May 23, 1851, and came to this country at an early age. He was a conductor for the Short Line with headquarters at Pocatello for several years and then took up farming at Robert, Ida. He moved to Harrisville in 1910. He is survived by a wife, Mary E. Cary Larson, three children, Mary Anne, Edward Peter and Joseph Preston Larson.

MOORE—Funeral services for Mrs. Agnes H. Moore, one of the original pioneers, were held in the Second ward meeting house Sunday morning with Bishop Robert McQuarrie officiating. The music was given by George Douglas and Miss Josephine and Elsie Shorten. John J. Ellis, James McGee and President James Wotherspoon were the speakers. Interment was in Ogden City cemetery.

MARKETS

Chicago Livestock.
Chicago, Sept. 1.—Hogs—Receipts, 57,000; market, slow, 10@15c lower; bulk, 7.80@8.20; light, 8.10@8.75; mixed, 7.40@8.70; heavy, 7.25@8.45; rough, 7.25@7.55; pigs, 3.75@8.50.
Cattle—Receipts, 20,000; market steady to 10c lower; beefs, 6.90@9.20; Texas steers, 6.75@7.75; western steers, 6.10@7.90; stockers and feeders, 5.50@7.85; cows and heifers, 3.65@8.00; calves, 9.00@12.25.
Sheep—Receipts, 30,000; market weak, 10 to 20c lower; native, 3.90@5.00; western, 4.15@4.90; yearlings, 5.35@6.00; lambs, native, 5.85@7.90; western, 6.60@7.90.

Kansas City Livestock.
Kansas City, Sept. 1.—Hogs—Receipts, 6,000; market, slow, 10c lower; bulk, 8.00@8.45; heavy, 8.00@8.40; packers and butchers, 8.00@8.60; light, 8.10@8.60; pigs, 5.75@7.00.
Cattle—Receipts, 32,000; market steady; prime fed steers, 8.60@9.10; dressed beef steers, 7.50@8.50; western steers, 6.50@8.15; southern steers, 5.00@6.60; cows, 3.50@6.50; heifers, 4.50@8.75; stockers and feeders, 5.00@7.60; bulls, 4.50@6.25; calves, 5.50@9.00.
Sheep—Receipts, 11,000; market 10c lower; lambs, 7.25@8.00; yearlings, 4.75@5.50; wethers, 4.50@5.00; ewes, 3.75@4.60; stockers and feeders, 3.90@6.50.

School Opens Tomorrow
The Central Business College

Will begin class work Tuesday morning.

OUR NIGHT SCHOOL will be open for registration this evening, the class work will begin Wednesday evening at 7:00. We will teach the same course of study in the evening that we teach in the day school. To the person who is employed during the day our evening school offers superior advantages.

GREGG SYSTEM OF SHORTHAND. It has no position writing, no shaded strokes, and no disconnected vowels. It is easy to learn, easy to write and easy to read. We also teach the—

PITMAN SYSTEM OF SHORTHAND to those who elect that system.

THE TOUCH METHOD OF TYPEWRITING will be taught. By this method the student learns to operate the machine without looking at the keyboard. It has many advantages over the old sight method. Our system of—

BOOKKEEPING is one of the latest standard systems published, and is now used in many of the largest and best schools in the country. The work is entirely individual, no student being held back for another.

THE GOVERNMENT SERVICE offers many opportunities to well-trained persons, and it shall be our aim to give Special Coaching to those who desire to enter this profitable field.

A SPECIALIST will be in charge of all the work. You will get expert individual instruction.

WE ARE HERE TO STAY and expect to maintain a school second to no other in the state. We will insist that all students do their work as it should be done, respect proper discipline, and get the greatest possible benefit from their time and money.

DESIRABLE POSITIONS will be secured as soon as the student is qualified to do the work.

"The School Quality"

CALL AT THE COLLEGE OFFICE and talk the matter over, or phone 764 and a member of our faculty will gladly call at your home and give full information.
Opposite Postoffice. L. A. ROACH, Manager.

HOUSES IN THE COUNTRY TO BE NUMBERED

The county commissioners of this county are being appealed to in an effort to have the roads of the county named and the houses numbered. The following communication on the subject was addressed to them today:

On March 20, 1907, a committee of the Real Estate association appointed to work out a plan of naming county roads and numbering houses in the county made a report to the association which was adopted. I beg to call your attention to the following extracts from it:

"First, as to numbers, we recommend that the plan be adopted of numbering according to the distance, computed in miles from the county court house. Let 1,000 numbers be assigned to each mile, the odd numbers to be used on the west or south side of the road, and the even numbers on the east or north side, as is the custom in the city.

"To illustrate: A house located 5 3/4 miles from the court house and on the north side of the road through Ogden canyon would be 'No. 5750 Ogden canyon road.'

"A house on the west side of the Riverdale road and 4 1/4 miles out would be 'No. 4251 Riverdale road.'
"Any one sent to the address '3500 Wilson Lane' would know at once that the house was located on the north side of the street and just 3 1/2 miles from the court house and from the center of the city.

"The address 'N 6801 Plain City road' would indicate that the house was distant from the court house 6 3/4 miles and on the south side of the street leading to Plain City.
"Since the county court house is situated near the business center of Ogden and is the legal seat of county government, it is the logical center from which to estimate the distance, and as it is less than 100 yards from the court house to a quarter section corner, it will be an easy matter to estimate the distance on a map to

nearly all principal points in the county without actual measurement.

"Some enterprising firms have put up sign boards along some of the roads, giving the distances to their stores in Ogden, after having measured the roads by means of a meter attached to a bicycle. In many cases these signs are soon destroyed or so disfigured as to become misleading. It has been suggested that only 100 numbers be used to the mile, but it would appear that such a system would conflict with the system of numbers now in vogue in the city, where there are about seven blocks or 700 numbers to the mile.

"In the matter of naming county roads, not very much remains to be done. Many of the principal roads have for years been known by names in common use, such as North Washington, Harrisville or Hot Springs Road, Wilson's Lane, Hooper Road, Sand Ridge, River Road, Uintah Road, Mountain Road, Canyon Road, and many others.

"In other cases a name could be agreed upon by the residents along a road or on petition, the county commissioners could officially assign a suitable name by which the road would be known on the county road map.

"The question will at once be asked, 'What are the benefits to be derived from a system of naming streets and numbering houses in the country?'

"The answer is, that no argument can be advanced in favor of naming streets and numbering houses in the city that does not apply equally to the country.

"Such a system would be especially useful in the matter of addresses on letters and papers to be delivered by carriers on the rural routes.
"It would save many a dispute over the mileage earned by county officers in serving papers and by jurors and witnesses in attendance on court.

"But by far the greatest advantage would be in the ease with which the exact location of any given house or farm could be described. Any one who has undertaken to follow the directions given him for finding a house in a strange neighborhood in the country will realize how much trouble this system will save.

"There will be no travelling 'half a mile south and about a quarter of a mile north to the first turn of the road that goes west after you have

passed the second road that turns east' until the wayfarer is as badly rattled as a tourist trying to learn the streets of Salt Lake.

"Instead it will be an easy matter to determine by the numbers on farm houses or gates just how far it is to the place sought.

"In this connection it may be stated that a plan similar to this has been in vogue for sometime in many of the counties in California and in other states.

"The further suggestion is made that the proposed plan need not interfere with any local system of numbers that may be adopted in the small towns of the county like Huntsville, North Ogden or Plain City.
"If this plan were in use it would be possible to enlarge the scope of the Ogden City directory, and to include a much larger portion of the county."

In calling your attention to the above, I wish to add briefly this additional argument:

There is a great effort now to encourage people in the cities to go back to farm or country life. But there is a large element that can never be tempted to cross the invisible line that separates the city from the country. The cry of 'Back to the land' does not seem to appeal to them.

The automobile, the telephone, the R. F. D. routes, the parcel post, are doing much for country life, but they are doing still more for city life. These things, it may be said, are bringing the country nearer to the city, with the result that it is easier for people to choose to live in the city. Hence the drift is away from the farm.

Anything which tends to bring city conditions to the farm should be encouraged. The city dweller who all his life has lived in a numbered house on a street or avenue with a recognized name, feels a loss of individuality when he has moved into a farm house on a lonely country road without a name.

Give to each county road a name and to each farm house a number and you have taken one more long step toward making country life as attractive as life in the city. Respectfully submitted,
(Signed)
O. A. KENNEDY.

It's hard to tell whether New York's brand should be called a dual or a duel system of government.

AN EXCEPTIONAL OFFER

Starting August 30th, we will give free for one week with a purchase of 50c of whole or ground spices, an imitation cut glass handled berry bowl. Details explained in our show window.
